

Teflon Coated End Station Parts NV6200 / 6200A

Semiconductor Equipment Services Corporation offers teflon- coated load and unload arms, transport arms, wafer picks, and clamp rings for the Eaton 6200 and 6200A ion implanters. Our end-station parts offers **several advantages** over the OEM's.

- ◆ SES parts are machined to closer tolerances to provide accurate and repeatable wafer placement.
- ◆ Teflon non-abrasive coating reduces particle generation.
- ◆ Elimination of silicone rubber pads.

Arm, Load Internal 6" NEW
Order by SES part number NS-007S

Arm, Unload Internal 6" NEW
Order by SES part number NS-008S

Arm, Transport Load 6" NEW
Order by SES part number NS-009S

Arm, Transport Unload 6" NEW
Order by SES part number NS-010S

Stand, Load Lock 6" NEW
Order by SES part number NS-011S

Stand, Unload Lock 6" NEW
Order by SES part number NS-012S

Pick, Wafer 6" NEW
Order by SES part number NS-013S

Ring, Clamp 6" 4pt NEW
Order by SES part number NS-6692S
