Quadrupole Lens Assembly

Rebuilt

**Call or e-mail us for current
International Pricing**

Order by SES part number RS-VAR01

The lens assembly is completely disassembled and all parts are refurbished to "like-new" condition. All insulators are replaced with new ones and all parts are checked for wear tolerances. Lens assembly is reassembled and aligned to exacting tolerances to ensure correct beam focus and lens operation. Electrical integrity testing is performed after completed re-assembly.

Electrostatic Scanner Assembly

Rebuilt

Order by SES part number RS-VAR02

The scanner assembly is completely disassembled and all parts are checked for wear tolerances. All parts are refurbished to "like new" condition. Scanner is reassembled and aligned to SES's strict quality standards. Electrical integrity testing is performed after re-assembly to ensure correct beam scanning capability.

- ◆ **Our warranty exceeds the OEM warranty.
SES warranty begins when the part is
installed, not when it's shipped.**
(Not to exceed 180 days from date of shipment)
- ◆ **Faster turn-around time and lower prices.**
